Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: The present invention relates to instructing a mobile terminal apparatus (cellular phone, Personal Digital Assistant) to upload and erase data from an external source using an electronic mail. This may protect data contained in mobile terminal apparatus that has been lost, from a person who improperly attempts to access data.

The prior art of record of record in combination or alone fails to teach or suggest these elements of independent claim 5, in combination with other elements. Independent claim 5 has limitations such as storing data in a mobile terminal apparatus (cellular phone, Personal Digital Assistant), communication means for receiving an electronic mail via a communication network and controller for transmitting (uploading) specified data to a specified server when a specified instruction (relating to user authentication) is received from a user via the received electronic mail and erasing the specified data from the storage means after transmitting (uploading) the specified data is completed. For the above reasons, independent claim 5 and its dependent claims 6-7, 15-20 are allowable.

2. Claims 5-7, 15-20 (now renumbered 1-9) are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Melur Ramakrishnaiah whose telephone number is (571)272-8098. The examiner can normally be reached on 9 Hr schedule.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Curt Kuntz can be reached on (571) 272-7499. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
